<b>Attachments:</b>	 Product Out of Stock.png
<b>Rank:</b>	0 i0006n:
<b>Sprint:</b>	TutorialsNinjaSiteTest

#### Description

Products that are out of stock are not confirmed to the user during the initial product search

#### Steps to reproduce

- Open the browser and navigate to the URL”<https://tutorialsninja.com/demo/index.php?route=product/search&search=iph> ”
- Find the search bar located at the top of the page.
- Enter a product name like “Iphone” and press Enter.
- Find the results that are displayed.
- Select the required product and click on “Add to Cart”.
- Check the confirmation message if the product is added to Cart successfully.
- Click on the Check out button.
- Confirm if an alert message is displayed as “Product marked with \*\*\* are currently out of stock”.

**[EST-25] [Attendance feature should be responsive irrespective of the number of applicants.](#)** Created: 10/Aug/24 Updated: 11/Aug/24 Resolved: 11/Aug/24

<b>Time Spent:</b>	3 hours		
<b>Original estimate:</b>	Not Specified		

<b>Rank:</b>	0 i0006f:
<b>Sprint:</b>	EST 5-Kodnest Application

#### Description

The attendance feature sometimes takes longer time to respond if more number of applicants are attending the course.

#### [Steps to reproduce](#)

- **Open the Attendance Feature:** Access the section of the application that includes the attendance feature.
- **Add a Large Number of Applicants:** Input a significant number of applicants or data points.
- **Observe Responsiveness:** Check if the feature remains responsive or becomes slow/unresponsive with increased data.
- **Test Various Scenarios:** Test with different numbers and types of data to ensure consistent behavior.

#### Description

The product search input should only return display valid product details with the partial input.

#### Comments

Comment by [Abhinab Talukdar](#) [ 11/Aug/24 ]

The time taken for the search to find the product should be consistent in all the search criteria.

#### Steps to reproduce

- Open your web browser.
- Type the url “<https://tutorialsninja.com/demo/index.php?route=common/home> ” and press Enter.
- Locate the search bar at the top of the page.
- Input the search items into the search bar.
- Click the search button and press Enter to execute the search.
- Measure the time it takes for the search results to appear. This can be done by observing it visually or by using a timing tool.
- Confirm if there is any delay in the response.

**Overall login page functionalities need to be checked.** (EST-17)

<b>Sprint:</b>	EST 5-Kodnest Application

#### Description

The Resume icon located at the extreme sidebar does not display the name of the icon on being hovered over it.

#### Steps to reproduce.

- Open the google chrome browser and paste the link “<https://app.kodnest.com/student-webapp/home>” to move to the application website.
- Locate the navigation bar that is located at the extreme left sidebar.
- Identify the icon representing “Resume” in the extreme sidebar.
- Hover your mouse pointer to the “Resume” icon.
- The hover should trigger a hover effect or tooltip displaying the icon Name.
- Confirm that no tooltip or name appears when hovering over the Resume icon. This indicates the issue of the icon not displaying its name.

**[EST-9] Course completed and Course in Progress tracker does not display the correct course progress value.** Created: 21/Jul/24 Updated: 11/Aug/24

<b>Sprint:</b>	EST 5-Kodnest Application

The Course completed and course progress tracker should display the overall completed course progress as percentage.

**Steps to reproduce**

- Click the url “[app.kodnest.com](http://app.kodnest.com)” and click Enter.
- Enter the valid user credentials and Log-In.
- Click on the “Start Learning” on the sidebar navigation.
- Validate the total course that the user has enrolled and the total courses that are in progress with the total courses that has been finished.
- Navigate to the Home Page and check the overall course-progress and course-completion tracker.
- It should display the correct progress status.
- Reproduce the steps again in other browsers and cross verify with the results.
